About

I'm looking for a web developer position that will allow me to use my creativity and enthusiasm for coding to turn complex problems into refined solutions that benefit the needs of both organizations and end-users, currently on a journey to master a wide range of full-stack technologies.

Technologies

HTML | CSS | JavaScript | React JS | Node.Js | npm | ES6 | JSX
Tailwind CSS | POSTMAN | REST API

Experience

Web Developer | Freelancing | 2020 - 2022

- Collaborated on the design and structure of the database, using SQL normalization techniques for optimal organization.
- Written and executed SQL queries to fetch and display data on the front end, incorporating sorting and filtering capabilities.
- Incorporated the TinyMCE rich text editor into the dashboard of the Blog website, enhancing content creation and editing capabilities, leading to increased user engagement.
- Played a pivotal role in content curation for marketing and contributed to the design of brochures.
- Crafted eye-catching banners and website images on Canva, enhancing the visual appeal of the websites.

Projects

Todo List SPA [React Hooks, JavaScript, Tailwind CSS]

- Developed core functionalities such as task addition, task completion, and task undo using React Hooks and local state management.
- Used Framer Motion for subtle animations, enhancing user engagement and interaction.
- Implemented advanced features such as dynamic task categorization based on Finished, Pending, and All tasks and real-time task filtering through a search bar.
- Overcame the challenge by successfully integrating both search bar filtering and category sorting simultaneously.

Learnings - Acquired hands-on experience with React, React Hooks, FramerMotion and gained proficiency in DOM manipulation, dynamic data handling, and responsive design.

Resume Builder SPA [React Hooks, JavaScript, Tailwind CSS]

- Designed and constructed a multi-step form that guides users through inputting various sections of their resume, such as Personnel Details, Education, Experience, Skills, and Hobbies.
- Incorporated multiple template designs, enabling users to choose from various layouts that suit their preferences.
- Overcame challenges related to state management complexity by exploring and learning about the useReducer hook as a potential solution.

Learnings -Learned to enhance print layout styling and acquired a deeper understanding of user interaction design, state management, and the nuances of complex form handling.

Certification

Web Application Course offered by **Cubucode Digital Media LLP**

Education

- | | | |
|--|--------|-------------|
| • Jain College of Engineering, Belagavi
Bachelor's of Engineering in Computer Science | 5.5 | (2015-2020) |
| • Vision PU College, Bengaluru
Pre University College | 72.75% | (2013-2015) |
| • Precious Blossoms High School, Belagavi
High School | 74.40% | (2002-2013) |

Skills

As a creative thinker and team player, I excel at collaborative problem-solving, efficiently managing time to consistently meet project deadlines with a curious mindset and empathy for end-users.

Interests

Film Making | Short Stories | Novels

Languages

English | Kannada | Hindi | Marathi
